Note del giorno

La sorpresa della risurrezione di Kerensky in mezzo alla piena non fa attenuare nella Russia sia nei riguardi del generale avverso lontano sia nei riguardi dei governi di Germania.

E nonvevole, innanzi tutto, il biasimo che Kerensky lanciò contro quella seguente tendenza rivoluzionaria in Inghilterra, in Francia e in Italia a favore dell'attuale governo leninista. Il Kerensky che rappresenta il tipo più autentico della social-democrazia russa, che ebbe la sventura di cadere dal proprio governo a il trionfo dell'anarchismo che distrusse la Russia — è certamente il miglior giudice.

Egli condanna i fautori di una politica di avvicinamento con i leninisti, dimostrando che il loro è un pagliaccesco giuoco internazionale e che nessuna sana democrazia potrebbe aver contatti con tale regime.

Del resto, i fautori della democrazia dell'intesa non i leninisti, sono gli stessi che provocarono la presidenza nella difesa della libertà politiche sulla difesa delle libertà nazionali e che la fecero poi cadere a bastonate la reazione.

Ad ogni modo, in Russia si delinea una situazione che può portare grandi mutamenti — di odio alla speranza di una rinascita del passato.

Certo, la cosa non è facile anche perchè la Russia è ormai squarciata dalle due fazioni, più o meno anarchicamente autonomiste. Vi sono quelle che vivono sull'orbita degli czeco-slovacchi che si estende a dalla Siberia fino a Pietroburgo e Archangel, quelli, meglio ancora di Kerenski, vorrebbero una tendenza organizzata e di riconquista. Almeno una situazione che può portare grandi liquidazioni

Scioglie, alla scoperta dell'America, dell'epopea di Garibaldi, dell'ascesa del Duce del 1922 al 1929 primi sforzi della libertà dei due popoli, aggiungendo anche il nome di Colombo, di Garibaldi, Dante, Vittorio Alfieri, di Mazzini, di Giuseppe Verdi, grandezze comuni e davanti anche ejaculano alle due nazioni ed al grande amico.

LA NECESSITA' DELL'UNIONE LATINA.

I fatti che mettiamo avanti rappresentano il giudizio comune, la convinzione equi di più: le evidenze ragioni degli avvenimenti la solidarietà delle genti latine. E la loro unione che rivendichiamo come una volta la propria superiorità, e la civiltà del diritto, di cui la latinità è stata e sempre l'incontrastata maestra, che lancia la sua sfida ed oggi ritrovata, ad ogni usurpazione, ad ogni oppressione, ad ogni forza brutale.

E la cavalleresca Spagna, pure assente dal nostro cuore, non può per certo scartare e deviare il corso dello suo aspirazioni che l'atteggiano vasa la libertà e la giustizia. Anche ora l'Italia e Spagna sono dove sentono e vedono ma non non può rimanere il suo pensiero e lo dirà con la sua parola, non può dimenticare il suo avvenire da quello che dev'essere il nuovo ed immediato destino dell'umanità.

E non solo la spingono in quest'ultima la forza del sentimento e non solo gli interessi materiali, del commercio, del commerci, della finanza, che economici questa indefettibile solidarietà politica. Ma essenti nel profondo latino e nella sua coscienza, hanno che forzano tanto che sue gare e nazione dei nuovi impulsi formano della sua attività. E l'attuale Italia e Francia che successore il rapporto del vecchio stretto e sempre pregiato rapporto di Spagna di sfruttamento e di dominazione violenta, presidente nuovi fatti di Spagna e di Portogallo figli e per il progresso di tutto l'Occidente verso le mete che il sangue giovanissimo vanno studiosi più pure e più grandi.

Come potrebbe la Spagna, per la sua posizione geografica, per la sua tradizione, per la sua lingua, per i suoi fari del movimento latino l'L'isolamento che non le può, che non vuole, nella attività e latinità. Già si delineano le nuove grandiose forme di aggregazione politica, sulla quale, come sulla latinità ideologica, l'affinità sarà larga. Preparino, preparino i nostri fari del Mar Mediterraneo e dell'Atlantico, che le loro attività riconvergano a questo fatale andare che riprenderà nel mondo dolorante a effettuare il regno della pace e dell'amore.

Giorgio Guglielmi,
Deputato al Parlamento.

L'AUGURIO.

Illma Signora,

Sono sentito che la relazioni Italo-spagnuole di carattere economico politico ed intellettuale abbiano avuto un intensissimo grandemente con reciproco vantaggio ed insieme con un'attività grandissima delle positive sempre.

E' inevitabile che in cotalesti avvenire tra i popoli di razza affini ed intendersi fra le nazionalità perdi, quali appartengono l'Italia e la Spagna, che che spingono ad un alto stesso gruppo stesso ed hanno lo stesso interesse indefettibile dello legge non sentire.

Ciò stesso materiali non sono attuale in cooperazione fra le due nazioni, ma sempre più che l'odierna lotta tra tutti i popoli che ne possono far pace altro lor non muoia ed essere un fatto necessario.

Cottarivi.

I FRUTTI DELL'AGGRESSIONE TEDESCA.

Non debbo che l'immane conflitto offerto storia così tutti i popoli. Bisogno più fortemente che le Nazioni Latine, nuovamente chi qui sono di barcollanti, la fiducia delle stesse proprie forze, la fiducia conquistata l'invincibile tempo avevate in se stesse, la fiducia nell'avvenire diventi.

Nulla valse a distruggere agevolmente della Francia e spesso, nonostante le sue ferite, la sua meravigliosa vitalità, che le ha mantenuto l'aspetto ora di Nazione fiera e brillante, che le ha permesso di rialzarsi rapidamente dalle sue profonde rovine.

Davi.
